MATHEUS FREITAS DA SILVA

São Roque - SP . (11) 98057-2005 . mathfreitas15@gmail.com

Education

2014 - 2018

Bachelor of Science, Computer Science
Universidade Estadual Paulista "Júlio de Mesquita Filho" - UNESP
Rio Claro, SP

Experience

10/2017 - 03/2018

Front-End Developer (Internship)
ClassApp
Has experience in the front-end development of the company's application, working alongside the CTO, through the React Native framework.

Activities

03/2018 - 07/2018

Undergraduate Thesis: Aggregating Interestingness Measures in Associative Classifiers
UNESP
The work aimed to explore the aggregation of measures, in which several Objective Measures are considered at the same time, in the context of associative classifiers.

03/2017 - 01/2018

Legal and Financial Director
Info Jr. (UNESP's Computer Science Junior Enterprise)
Analyze, monitor and prepare documents capable of safeguarding the legal and financial security of the company, besides monitoring the activities of its Advisory.

06/2017 - 07/2017

Project Manager
Info Jr. (UNESP's Computer Science Junior Enterprise)
Responsible for coordinating the Núcleo Unesp's WordPress website development.

11/2016 - 06/2017

Systems Advisor
V Welcomej Bauru (Event focused on the UNESP's Junior Enterprise trainees)
Responsible for the event's website development, as well as assisting in registering and content choosing of the participants.

10/2015 - 09/2016

Scientific Research Fellowship
FAPESP .:: Fundação de Amparo à Pesquisa do Estado de São Paulo
Has experience in the fields of Image Processing and Markovian Random Fields. Through the implementation of algorithms in MATLAB, we explored a better balance between detail preservation and noise reduction, contributing to the development of Digital Breast Tomosynthesis (DBT) technology. Title: "Tomographic Reconstruction of 3-D Images from 2-D Projections in Digital Breast Tomosynthesis".

Skillset

- Advanced English
- Javascript
- C
- Python

- HTML/CSS
- React
- Node.js
- Java

- MATLAB
- Excel
